👋 Greetings!

👤 I'm a front-end developer, and my main focus is developing 🛒 Shopify themes.

🔥 What I will do:

- ♦ Shopify theme development (Liquid, JSON templates, metafields, scheme) and Storefronts on Hydrogen.
- ♦ I create RWD with semantic markup and BEM-naming by Figma or XD layout.
- ♦ Styling and animation on CSS/Sass, TailwindCSS, and AnimXYZ.
- ♦ JavaScript programming on React, Vue3, Express and Remix frameworks.
- ♦ Experience with RESTful API development and integration.
- ♦ I use Theme-Kit or Shopify-CLI and environment Vite or Gulp.
- ♦ Teamwork using Git, task managers such as Jira, and time-tracker.
